PROFILE

Computer Science Engineering graduate with a strong foundation in programming and web technologies. Proficient in **Python, JavaScript, HTML, CSS, Node.js, SQL**. Possesses a good understanding of programming fundamentals, problem-solving, and database concepts. Experienced in applying technical skills through academic and personal projects. A quick learner with strong analytical and communication skills, eager to contribute to challenging projects and grow in a professional environment.

EDUCATION

Ballari Institute of Technology and Management, Ballari 2022 – 2026

Bachelor of Engineering - Computer Science and Engineering

CGPA : 8.10, Percentage : 81%

Narayana Junior College, Kurnool 2020 – 2022

Intermediate (MPC)

Percentage: 93%

Montessori E M High School, Kurnool 2019 – 2020

Secondary School (SSC)

Percentage: 98%

PROFESSIONAL EXPERIENCE

Python Developer

Successfully completed a Python Internship, strengthening my Python programming skills, analytical thinking, and problem-solving abilities. This experience helped me build confidence in applying programming concepts in real-world environments.

SKILLS

Languages	Python, SQL
Web Development Tools	HTML, CSS, JavaScript
Database	MySQL
Tools	Git, Github, VS Code
Soft Skills	Problem Solving, Creative thinking, Team collaboration

PROJECTS

YouTube Comment Analyzer | Mini Project

- Built a tool to analyse and classify user comments based on sentiment using basic NLP techniques.
- Processed text data to identify sentiment trends, supporting better feedback interpretation and moderation.

AI-Based Health Monitoring System | Project Phase 1

- Designed a prototype to monitor key health parameters using AI techniques for real-time analysis and anomaly detection.
- Focused on data collection, preprocessing, and initial model development to support predictive health insights.

Match Result Tracking System | Python Project

- Developed a system to record, update, and display sports match results using Python with user-friendly input and output handling.
- Implemented data storage, sorting, and statistics features to track team performance and match history efficiently.

EXTRA CURRICULUM ACTIVITIES

- Represented college in zonal and Inter-zonal level Hockey tournaments.
- Developed leadership, teamwork and discipline through competitive sports.
